immediate relief measures through enhanced commission on telecom tariff handled by them; and

(d) if so, Government's reaction thereto?

THE MINISTER OF STATE IN THE MINISTRY OF COMMUNICATIONS AND INFORMATION TECHNOLOGY (SHRI TAPAN SIKDAR): (a) to (d) The STD call charges for intra circle calls were reduced with effect from 14th January, 2002 as an additional package for the benefit of the users of telecom services. In the present scenario of competition among all the service providers, when long distance operation has been opened to private sectors, the call charges are bound to fall. Consequent to the reduction in these tariffs, representations from various sources including Federation of PCO operators in the country were received to increase the commission on PCOs and service charges. However, no guarantee whatsoever was given to the franchisees, for any definite earnings or income out of operation of Local/STD/ISD/PCOs. Even in the agreement signed with the franchisees, this aspect has been made very clear. At present, there is no proposal to enhance the rate of commission to the franchisees. Moreover, with reduction in rates, the traffic is expected to go up. In fact, observations taken in February indicate that while rates have been brought down by around 60%, the metered call units have gone down by only 20% clearly indicating the compensatory effect of the increased traffic.
